GIORGI TOLORDAVA

Frontend Developer

ABOUT ME

I am a Front-end developer focused on creating modern and user-friendly web solutions. I am actively developing in the technological direction and working to deepen my knowledge and practical experience in web application development. My goal is to contribute to the creation of effective, functional and scalable systems that will contribute to the overall productivity of the company and increase user satisfaction.

CORE COMPETENCIES

PERSONAL/MY INTERESTS

- In developing web technologies and adopting new frameworks or innovative approaches.
- I want to deepen my knowledge in Full Stack development in order to fully engage in the process from planning to implementation of systems.
- I also want to learn machine learning and use it to improve business analytics and strategic decisions.
- I constantly strive for professional development, which for me means moving with technological progress and participating in real value-oriented projects.

PROJECTS

- Estatein
- Login Form
- User Posts
- Product Cards
